CIRCULAR

All stakeholders are herewith informed that they may use Methyl Bromide for fumigation treatment of peanuts exported to Vietnam. The dose requirement as per NPPO- Vietnam is 100 g. /cu. m. for 72 hours at 21°C or equivalent at NAP. This provision shall be in force with effect from date of its issue.

All other conditions stipulated in SoP for export of peanuts remain unchanged and shall continue to be in force and as amended from time to time.

The Methyl Bromide may be used **ONLY for Vietnam**. The existing conditions of the relevant SoP need to be followed for export of peanuts to all other countries.

Further, it must be noted that the use of Methyl Bromide is subject to compliance of all conditions stipulated in **NSPM-11 & NSPM-12**
