

ANUGA 2023 - International Food Industry Trade Fair

From 7th to 11th October 2023

(Koelnmesse, Germany)

**Agricultural & Processed Food Products
Export Development Authority.**

Ministry of Commerce & Industry, Government of India

More International than Ever! That was Anuga 2023

Days filled with valuable discussions, presentations, trends, and innovations have come to an end—the Anuga 2023, the world's leading and largest trade fair for food and beverages, was an overwhelming success and once again reaffirmed its position as the industry's number one. We are particularly delighted with the impressive increase in trade visitors and exhibitors from around the world.

Agricultural and Processed Food Products Export Development Authority (APEDA)

The Agricultural and Processed Food Products Export Development Authority (APEDA) is an Indian Apex Export Trade Promotion Active government body set up by the Ministry of Commerce and Industry, Govt of India under the Agriculture and Processed Food Products Export Development Authority Act 1985.

APEDA is the premier body of export promotion of fresh vegetables and Fruits and their Products, Meat and Meat Products, Poultry and Poultry Products, Dairy Products, Confectionery, Biscuits and Bakery Products, Honey, Jaggery and Sugar Products, Cocoa and its products, chocolates of all kinds, Alcoholic and Non-Alcoholic Beverages, Cereal and Cereal Products, Groundnuts, Peanuts and Walnuts, Pickles, Papads and Chutneys, Guar Gum, Floriculture and Floriculture Products, Herbal and Medicinal Plants, De-oiled rice bran, Green pepper in brine, Cashew Nuts and Its Products etc.

It provides the crucial Interface between farmers, storehouses, packers, exporters, surface transport, ports, Railways, Airways, and all others engaged in export trade to the international market.

The vision is to "create a world class organization dedicated to promote india as the "supplier of choice, agro and value added food products in the global markets" the functions of the authority includes.

- Development of Industries relating to the scheduled products for undertaking surveys and feasibility studies, participation in enquiry capital through joint ventures and other reliefs and subsidy schemes;

- Registration of persons as exporters of the scheduled products on payment of such fees as may be prescribed;

- Fixing of standards and specifications for the scheduled products for the purpose of exports,

- Carrying out inspection of meat and meat products in slaughter houses, processing plants, storage premises, conveyance or other places where such products are kept or handled for the purpose ensuring the quality of such products,

- Improving of packaging of the Scheduled Products

- Improving of marketing of the Scheduled Products outside India,

 - Promotion of export oriented production and development of the Scheduled products

 - Collection of statistics from the owners of factories or establishment engaged in the production processing, packaging, marketing or export of the scheduled products or from such other persons as may be prescribed on any matter relating to the scheduled products and publication of the statistic so collected or of any portion there of or extracts there from;

 - Training in various aspects of the industries connected with the scheduled products, Such other matters as may be prescribed.

APEDA in association with Indian Mission abroad promoted Indian millets during the Republic Day celebrations. Millets products were sourced from various Start ups and sent to Embassy of India in various countries like Doha, Qatar, Italy, Uzbekistan, Bahrain, Malaysia, Russia, Tokyo, Indonesia, Republic of Korea Saudi Arabia, Perth, Denmark, Argentina, Egypt, Canada, Guatemala, Algeria and China for promotion during the Republic Day celebrations.

ANUGA 2023 - International Food Industry Trade Fair Fair at a Glance

Anuga 2023 exceeds all expectations and underlines its position as the number one global food and beverage trade fair.

The key theme "Sustainable Growth" placed the focus on sustainable industry solutions Anuga, the world's largest and most important trade fair for food and beverages, is the undisputed leader and demonstrated over the course of five days that it is the place-to-be for the industry. The following figures reflect the strong participation: Boasting around 140,000 trade visitors from 200 countries and approx. 7,900 exhibitors from 118 countries the leading global trade fair exceeded all expectations. The share of foreign exhibitors was 94 percent and at 80 percent there was a record share of foreign visitors. This makes Anuga more international than ever and confirms its ongoing success as the number one global food trade fair. "Over the decades, Anuga has established itself as the undisputed number one event. And the current edition is proof of our quality and relevance in a rapidly developing sector. We are proud to unite and strengthen the global food and beverage community under the flag of Anuga," Gerald Böse, President and Chief Executive Officer of Koelnmesse GmbH, emphasised. etc.

Under the key theme "Sustainable Growth", this year's Anuga primarily focused on the themes sustainability and a responsible use of resources. From the optimisation of the supply chains through to fair food production, experts from all over the globe presented an impressive variety of approaches. This emphasised the industry's clear commitment to a sustainable development and readiness to face global challenges.

"As the world's largest trade fair for food and beverages, Anuga 2023 set an important signal for the future of the food industry. As such, it is promoting both the dialogue and collaboration between companies, organisations, the industry, science and politics to jointly shape a sustainable and liveable future," Gerald Böse added.

Björn Fromm, President of the German Association of the Retail Grocery Trade (BVLH) added: "Anuga has bounced back impressively and proven that it is quite rightly the leading global trade fair for the food industry. Anyone, who follows the diversified supporting programme attentively and examines the many innovations, can see that the trade fair also sets the theme trends. "Sustainable Growth", the central theme of Anuga 2023, was practically tangible in every hall. In my capacity as President of the BVLH, I am delighted, as co-organisers, to further develop Anuga and in this way contribute towards further expanding its leading role among the world's food trade fairs."

High quality of the visitors

The exhibitors particularly praised the high quality of the trade visitors. The who's who from the trade and food service sector attended the leading global trade fair in Cologne. All of the relevant players from the most important food retailers were represented: Amazon, Aeon Co, Aldi, Auchan, Carrefour, Coop, Cosco Wholesale, Colruyt Group, Lidl & Kaufland, Metro, Mercadona, Migros, Rewe, Spar and Walmart. The highest numbers of visitors from European countries were registered from Great Britain, Italy, the Netherlands, Spain and Turkey. Beyond Europe, the most well-represented nations included Brazil, China, Japan, Korea and the USA.

Shaping the future with Anuga HORIZON

Anuga HORIZON was staged as a conference for the first time this year. International industry experts, pioneers and decision-makers came together to exchange their knowledge and experience. In the course of inspiring lectures and panel discussions the industry's latest trends, challenges and solutions were addressed.

Ethan Brown, CEO of Beyond Meat, stated positively about Anuga HORIZON: "It was great to be stood in front of such a progressive audience at the Anuga HORIZON Conference and engage in

a direct exchange with German and European consumers. They play a pioneering role in the transition over to plant-based meat alternatives and a vegetarian diet, which is of decisive importance for our planet."

"Anuga HORIZON proved to be an outstanding platform for in-depth discourse, far beyond superficial small talk. A host of perspectives came together here, supported by an impressive diversity and global reach. This event was vibrant with positive energy and the joint incentive for innovation," commented Richie Gray, Vice President and Global Head Snack Futures from Mondeléz International.

"weareAnuga" campaign strengthens the trade fair community

In an era where the food world is becoming increasingly more global and sustainability and healthy food more and more important, Anuga promotes the exchange between people from different cultures, industries and areas of interest – not only in Cologne – but also at the satellite events held worldwide. This solidarity was also reflected by the "#weareAnuga" campaign, which was launched at the 2023 edition. The leading global trade fair went viral across the social media and achieved 2.5 million hits over the entire duration of the trade fair.

Anuga in figures:

7,850 companies from 118 countries took part in Anuga 2023 on exhibition space covering 300,000 m². The share of foreign exhibitors was 94 percent. Around 140,000 trade visitors from 200 countries attended Anuga 2023, the foreign share was 80 percent.

EVENT AT A GLANCE

Food Sampling

Key Highlights

APEDA has facilitated the participation of Indian exporters, showcasing their varied range of food products in all categories at the ANUGA 2023 - International Food Industry Trade Fair.

Large number of visitors showed keen interest in and around 50 millet (Shree Anna) based products displayed at APEDA pavilion.

ANUGA 2023 - International Food Industry Trade Fair, an international platform being provided to member exporters showcases their different product portfolio.

Participants had an opportunity to increase their business and make new business contacts through the fair.

APEDA had an opportunity to strengthen their business ties with respective participants and other related beneficiaries.

APEDA played an important role in showcasing India's growing food industry.

APEDA's participation in the event was organised by Mr. Tarun Bajaj, Director.

Conclusion

The Indian Embassy, Germany suggested APEDA officials the following for future participation in ANUGA 2023 - International Food Industry Trade Fair:

- a. In order to develop trade between the India and Germany further, a survey of potential products and their exporters may be undertaken every 2-3 months prior to participation.**
- b. On similar grounds, the BSMs (physical and virtual) is also required to undertake in regular intervals.**
- c. Since, it is one of the most prestigious food fair of EU & UK, APEDA should take more space to accommodate more number of Exporters for better visibility.**
- d. The team joining the event should have prior market analysis to understand the demand and supply. Team from APEDA should have prior experience of the market to help development of trade.**
- e. To improve stakeholders' attention the packaging should be improved further as per the packaging standards of the importing country.**
- f. Product promotion brochures & pamphlets should be prepared and circulated during the fair.**
- g. Renowned Indian chef may be hired for live cooking of millet & other dishes during the fair to give wider publicity.**

TAKING INDIAN AGRI EXPORTS TO NEW HEIGHTS

APEDA

Agricultural and Processed Food Products Export Development Authority (APEDA), Ministry of Commerce and Industry, Government of India, a statutory body for export promotion of agri products under its schedule was established by an Act. of Parliament in 1986.

Headquartered at New Delhi, APEDA has fourteen regional offices located at Mumbai, Kolkata, Bengaluru, Guwahati, Telangana, Varanasi, Chennai, Chandigarh, Bhopal, Kochi, Ahmedabad, Srinagar, Jammu and Ladakh.

SCHEDULED PRODUCTS

Fruits, Vegetables and their Products; Meat and Meat Products; Poultry and Poultry Products; Dairy Products; Confectionary, Biscuits and Honey, Jaggery and Bakery Products Sugar Products; Cocoa and its By-Products; Alcoholic and Non-Alcoholic Beverages; Cereals and Cereal Products, Ground Nut, Peanut and Walnut; Pickles, Papads and Chutneys; Guar Gum; Floriculture and related products, Medicinal Plants.

FRESH FRUITS & VEGETABLES

Fruits and vegetables are essential for humans and a foundation of balanced diet due to their of nutrients and energy. It rejuvenates all the five senses of human body. It not only satisfies one's taste buds but also provides high nutritional value. For one to stay healthy and fit, it is suggested to add fruits & vegetables in daily diet as many essential nutrients such as vitamin A, B, C and other vitamins, minerals, carbohydrates, polyphenols, folates, carotenes and antioxidants etc are present in them in abundant value.

India is known as fruit basket of the world. India is the second largest producer of fruits and vegetables because of its fertile lands having every agro-climatic profile. India produces all types of fruits from water melons to strawberries to citrus fruits. World's finest mangoes are produced in India and take the second rank in world in its production. India also ranks first in production of ginger and okra and second in production of banana and papaya.

Being the producer of all types of fruits and vegetables gives an upper hand to the country in the export to the world. India is a fast-growing exporter and exports are showing a consistent persistent growth over the years. In fruits such as mangoes, India leads in export in quantity as well as quality. With attention being paid to all post harvest management procedure such as grading, post harvest handling and phytosanitary requirements and also providing infrastructure investments led to India's strong presence in export markets.

Potential fruits for exports from the country include grapes, mangoes, pomegranate, banana etc. In the Vegetable sector potential products for export are onion, potato, okra, green chilies etc.

PROCESSED FOODS

India has a high diversity of topography, climate and soil which is the Himalayas to its North, the Thar desert to its west, the Gangetic delta to its East and the deccan Plateau in the South, the country is home to vast agro-ecological diversity, so it is inherently a multi product agricultural power house. No other country produces as many crops as we do.

With India moving from a position of scarcity to surplus in terms of food production, processed food industry is experiencing an innumerable growth. India is harnessing this promising sector with the use of innovative technologies such as Individual quick frozen (IQF), Freeze dried, Retort and Dehydration. The transfer of technology and extension system in the country is strong and extensive, which carries the message of newer technology to the field.

Linkages with a number of external agencies, research and development organizations are strong and many bilateral and multilateral arrangements have been developed. This has helped bringing latest technologies available globally for value addition, which also helped to improve agricultural productivity in general, and diversification of crops in particular.

India's export of processed food products such as Pulses, Mango Pulp, Groundnuts, Cucumber & gherkins, Processed Fruits, Juices and Nuts under the APEDA basket has witnessed a significant export in the last one decade. Wine industry in India is also experiencing steady growth and seems to capture promising overseas market making Indian wines available in every corner of the globe.

Cereals

Agriculture forms the core of the Indian economy with about two-thirds of the population thriving on this sector for sustenance. Cereals form a major bulk of the crop grown.

India's Cereal Basket boasts of wide varieties and large quantities. Globally India is positioned as the second largest producer of both rice and wheat. The country also produces Jau (Barley), Maize and different varieties of millets i.e. Jowar (Sorghum), Buckwheat, Sorghum (Jowar), Pearl Millet (Bajra), Ragi/Mandua, Foxtail Millet, Proso Millet, Kodo Millet, Barnyard Millet (Sawa/Sanwa/Jhangora), Little Millet (Kutki), Pseudo Millet – Buckwheat (Kuttu), Amaranths (Chaulai), Brown Top Millet.

Rice is the second most popular Cereal consumed across the world. Major categories of rice in India are grouped into Basmati and Non-Basmati. So far, 43 rice varieties have been notified as Basmati by Govt. of India under the Seeds Act 1966. About 1000 varieties of rice have been notified as non-Basmati.

Basmati rice is a registered Geographical Indication (GI) product of India. Basmati Rice, which literally translate into fragrance of the earth, originated in India, its cultivation in a delineated GI area gives its characteristics which has brought it fame. Owing to popular demand, Indian Basmati Rice Exports have gone up exponentially in the past decade.

India wheat production has been constantly rising. India is second largest wheat producer in the world. As a global culinary ingredient, wheat is used in the making of bread, pasta cakes and for fermentation produce of alcoholic beverages. Different varieties of wheat and wheat products are exported to Bangladesh, United Arab of Emirates, Qatar , Sri Lanka, Oman, Malaysia, Yemen, Afghanistan and Indonesia

Maize or corn is used for human consumption and animal feed. Besides this Maize is also used as the raw material in the manufacturing of starch, oil, protein, alcoholic beverages, food sweeteners, pharmaceuticals, cosmetics, gums, etc. it is largely exported to Bangladesh, Vietnam, Nepal, Malaysia, Myanmar, U Arab Emirates, Bhutan, Thailand, Qatar, Syria

Millet is a common term to categorize small-seeded grasses that are often termed nutri-cereals. Millets are the cereal crops generally small-seeded and known for high nutritive value.

Increasing interest in reviving the consumption of millets across various countries is favoring the growth prospects of this market in recent years. India is the 5th largest exporter of Millets. Millets exports from India have continuously increasing. Different varieties of millets are exported to Nepal, United Arab Emirates, Saudi Arab, Libya, Tunisia, Morocco, UK, Yemen, Oman, Algeria etc.

ANIMAL PRODUCTS

India is rich in its livestock wealth, which plays an important role in the socio-economic aspects of India. Exports of animal products contribute significantly in the overall agri products exports. India has prominent share in international production and export in products like Buffalo meat, Sheep/ Goat meat, Poultry products, Animal Casings, Milk and Milk products, Honey etc.

India is successfully exporting buffalo meat to more than 70 countries since last 50 years with an excellent track record. Health Certificates are issued from APEDA's Meat.net portal. The animals are raised on natural feeds without any supplement of antibiotics, hormones and growth promoters.

Poultry products exported from the country include: Live Fowls/ Ducks/ Geese/ Turkey, Meat/ frozen chilled Deices, cut and offal, fatty livers/ eggs/ egg yolk and birds.

Dairy products exported include: dry/ powdered/ condensed/ semi-solid whey, Butter milk, Yogurt. Butter, powder/ grated/ fresh cheese/ cheese spreads, and Ghee.

ORGANIC FARMING- A NEW DAWN

Organic products are grown with an environmentally and socially responsible approach, under a designed system of agriculture, without the use of chemical fertilizers and pesticides. This is a method of farming that works at the grass root level, preserving the reproductive and regenerative capacity of the soil and providing good plant nutrition and sound soil management. It also produces nutritious food which is rich in vitality and is disease-resistant.

India produces certified organic products which includes all varieties of food products namely; Basmati Rice, Pulses, Honey, Tea, Spices, Coffee, Oilseeds, Fruits, Processed Food, Cereals, Herbal medicines and their value-added products.

Talking about cereals, a sizeable quantity of organic Basmati Rice is produced in the country. Organic Basmati Rice is produced in Uttarakhand, Haryana, U.P and J&K while the Non-Basmati Rice varieties are grown across the nation. Organic cereals and millet are also produced in the country. Organic pasta made from organic wheat also finds many takers.

An entire range of organic pulses-green gram, black gram and horse gram, along with arhar, chick pea, cow pea, and kidney beans are produced.
