INSPIRE FOOD BUSINESS

MAY 9-11, 2023
ENERCARE CENTRE, TORONTO

Introduction of SIAL

SIAL Canada is not only the meeting point of the Canadian agri-food industry, but also the privileged gateway to the American and international markets. The show is the only event of its kind in Canada, bringing together more than 1,000 national and international exhibitors from 50 countries and welcoming more than 20,000 professional visitors from Canada, the United States and 60 other countries.

SIAL Canada is the only national trade show to offer a complete range of food products under one roof. It meets the needs of the retail, food service and food processing industries.

BUSINESS

20TH EDITION TORONTO • MAY 9 TO 11, 2023 • ENERCARE CENTER

The banner features a red background with a silhouette of the Toronto skyline at the bottom. A large, stylized red apple is the central focus, with the text 'INSPIRE FOOD BUSINESS' overlaid on it. The SIAL Canada logo is in the top left, and the event details are in a black bar at the bottom.

Agricultural and Processed Food Products Export Development Authority (APEDA)

The Agricultural and Processed Food Products Export Development Authority (APEDA) is an Indian Apex Export Trade Promotion Active government body set up by the Ministry of Commerce and Industry, Govt of India under the Agriculture and Processed Food Products Export Development Authority Act 1985.

APEDA is the premier body of export promotion of fresh vegetables and Fruits and their Products, Meat and Meat Products, Poultry and Poultry Products, Dairy Products, Confectionery, Biscuits and Bakery Products, Honey, Jaggery and Sugar Products, Cocoa and its products, chocolates of all kinds, Alcoholic and Non-Alcoholic Beverages, Cereal and Cereal Products, Groundnuts, Peanuts and Walnuts, Pickles, Papads and Chutneys, Guar Gum, Floriculture and Floriculture Products, Herbal and Medicinal Plants, De-oiled rice bran, Green pepper in brine, Cashew Nuts and Its Products etc.

It provides the crucial Interface between farmers, storehouses, packers, exporters, surface transport, ports, Railways, Airways, and all others engaged in export trade to the international market.

The vision is to “create a world class organization dedicated to promote india as the “supplier of choice, agro and value added food products in the global markets” the functions of the authority includes:

- Development of Industries relating to the scheduled products for undertaking surveys and feasibility studies, participation in enquiry capital through joint ventures and other reliefs and subsidy schemes;
- Registration of persons as exporters of the scheduled products on payment of such fees as may be prescribed;
- Fixing of standards and specifications for the scheduled products for the purpose of exports,
- Carrying out inspection of meat and meat products in slaughter houses, processing plants, storage premises, conveyance or other places where such products are kept or handled for the purpose of ensuring the quality of such products,
- Improving of packaging of the Scheduled Products
- Improving of marketing of the Scheduled Products outside India,
- Promotion of export oriented production and development of the Scheduled products
- Collection of statistics from the owners of factories or establishment engaged in the production processing, packaging, marketing or export of the scheduled products or from such other persons as may be prescribed on any matter relating to the scheduled products and publication of the statistic so collected or of any portion there of or extracts there from;
- Training in various aspects of the industries connected with the scheduled products, Such other matters as may be prescribed.
- APEEDA in association with Indian Mission abroad promoted Indian millets during the Republic Day celebrations. Millets products were sourced from various Start ups and sent to Embassy of India in various countries like Doha, Qatar, Italy, Uzbekistan, Bahrain, Malaysia, Russia, Tokyo, Indonesia, Republic of Korea Saudi Arabia, Perth, Denmark, Argentina, Egypt, Canada, Guatemala, Algeria and China for promotion during the Republic Day celebrations.

Event at a Glance

**Shri Piyush Goyal, Hon'ble Minister of Commerce & Industry,
inaugurates India Pavilion at SIAL Canada**

Shri Piyush Goyal, Hon'ble Minister for Commerce & Industry, Govt. Of India inaugurated the India Pavilion at SIAL Canada 2023 in Toronto on May 9, 2023 with participation from over 100 Indian Food & Beverage Exporters.

Sampling sessions were organized at the Indian Pavilion to commemorate the International Year of Millets.

While praising the largest ever India participation in SIAL Canada 2023, the Minister also asserted that the challenge before India was “how we can do larger and bigger trade shows in the food industry – whether in India or other parts of the world, showcasing the best of what we have to offer – across continents and borders.”

*He also expressed his confidence that India's agri exports to Canada can grow by **10x to 20x** in the coming years, given the potential.*

He highlighted that the need of the hour was for entrepreneurs on both sides to collaborate and leverage potential untapped opportunities in the Canadian market.

SIAL Canada is not only key to the Canadian agri-food industry, it is also a privileged entryway to the US and international markets. It is the only national trade show that offers a complete range of food products under one roof to meet your customers' expectations. Whether you work in the retail, catering or food processing industry, or you're simply looking for new and innovative products or regional specialties from around the world, you'll find exactly what you need right here.

Trade Investment Event

On the sidelines of SIAL Food Canada 2023, trade & investment promotion event with Indian companies and Canadian importers were organised on 10th May 2023 at Fairmont Royal York Hotel, Toronto. The Hon'ble Minister of Commerce & Industries, Shri Piyush Goyal, addressed the trade, more than 250 delegates were present at the events. A dinner was hosted by the embassy of India, where millet-based delicacies like bajra Kababs, Bajra Roti and Bajra Kheer was served.

Feedback from exporters

All the exporters got export orders for their commodities. They are satisfied with the APEDA arrangement however, they have requested that more prominent locations may be provided to APEDA.

Recommendations

1. APEDA may continue to participate in Canada at this scale.
2. B2B interaction may be organised in future and Canadian importers to be invited during the proposed RBSM
3. Besides Toronto, participation should also be organised in other cities like Montreal, Vancouver, etc.
4. There should also be focused event for investment and companies from Canada may be invited for collaboration in investment in the Indian food processing sector.
5. India should also try to get guest of owner status in these kind of events.

APEDA Brochure

SCHEDULED PRODUCTS

Fruits, Vegetables and their Products; Meat and Meat Products; Poultry and Poultry Products; Dairy Products; Confectionary, Biscuits and Honey, Jaggery and Bakery Products Sugar Products; Cocoa and its By-Products; Alcoholic and Non-Alcoholic Beverages; Cereals and Cereal Products, Ground Nut, Peanut and Walnut; Pickles, Papads and Chutneys; Guar Gum; Floriculture and related products, Medicinal Plants.

PROCESSED FOODS

India has a high diversity of topography, climate and soil which is the Himalayas to its North, the Thar desert to its west, the Gangetic delta to its East and the deccan Plateau in the South, the country is home to vast agro-ecological diversity, so it is inherently a multi product agricultural power house. No other country produces as many crops as we do.

With India moving from a position of scarcity to surplus in terms of food production, processed food industry is experiencing an innumerable growth. India is harnessing this promising sector with the use of innovative technologies such as Individual quick frozen (IQF), Freeze dried, Retort and Dehydration. The transfer of technology and extension system in the country is strong and extensive, which carries the message of newer technology to the field.

Linkages with a number of external agencies, research and development organizations are strong and many bilateral and multilateral arrangements have been developed. This has helped bringing latest technologies available globally for value addition, which also helped to improve agricultural productivity in general, and diversification of crops in particular.

India's export of processed food products such as Pulses, Mango Pulp, Groundnuts, Cucumber & gherkins, Processed Fruits, Juices and Nuts under the APEDA basket has witnessed a significant export in the last one decade. Wine industry in India is also experiencing steady growth and seems to capture promising overseas market making Indian wines available in every corner of the globe.

FRESH FRUITS & VEGETABLES

Fruits and vegetables are essential for humans and a foundation of balanced diet due to their nutrients and energy. It rejuvenates all the five senses of human body. It not only satisfies one's taste buds but also provides high nutritional value. For one to stay healthy and fit, it is suggested to add fruits & vegetables in daily diet as many essential nutrients such as vitamin A, B, C and other vitamins, minerals, carbohydrates, polyphenols, folates, carotenes and antioxidants etc are present in them in abundant value.

India is known as fruit basket of the world. India is the second largest producer of fruits and vegetables because of its fertile lands having every agro-climatic profile. India produces all types of fruits from water melons to strawberries to citrus fruits. World's finest mangoes are produced in India and take the second rank in world in its production. India also ranks first in production of ginger and okra and second in production of banana and papaya.

Being the producer of all types of fruits and vegetables gives an upper hand to the country in the export to the world. India is a fast-growing exporter and exports are showing a consistent persistent growth over the years. In fruits such as mangoes, India leads in export in quantity as well as quality. With attention being paid to all post harvest management procedure such as grading, post harvest handling and phytosanitary requirements and also providing infrastructure investments led to India's strong presence in export markets.

Potential fruits for exports from the country include grapes, mangoes, pomegranate, banana etc. In the Vegetable sector potential products for export are onion, potato, okra, green chillies etc.

Cereals

Agriculture forms the core of the Indian economy with about two-thirds of the population thriving on this sector for sustenance. Cereals form a major bulk of the crop grown.

India's Cereal Basket boasts of wide varieties and large quantities. Globally India is positioned as the second largest producer of both rice and wheat. The country also produces Jau (Barley), Maize and different varieties of millets i.e. Jowar (Sorghum), Buckwheat, Sorghum (Jowar), Pearl Millet (Bajra), Ragi/Mandua, Foxtail Millet, Proso Millet, Kodo Millet, Barnyard Millet (Sawa/Sanwa/Jhangora), Little Millet (Kutki), Pseudo Millet – Buckwheat (Kuttu), Amaranths (Chaulai), Brown Top Millet.

Rice is the second most popular Cereal consumed across the world. Major categories of rice in India are grouped into Basmati and Non-Basmati. So far, 43 rice varieties have been notified as Basmati by Govt. of India under the Seeds Act 1966. About 1000 varieties of rice have been notified as non-Basmati.

Basmati rice is a registered Geographical Indication (GI) product of India. Basmati Rice, which literally translate into fragrance of the earth, originated in India, its cultivation in a delineated GI area gives its characteristics which has brought it fame. Owing to popular demand, Indian Basmati Rice Exports have gone up exponentially in the past decade.

India wheat production has been constantly rising. India is second largest wheat producer in the world. As a global culinary ingredient, wheat is used in the making of bread, pasta cakes and for fermentation produce of alcoholic beverages. Different varieties of wheat and wheat products are exported to Bangladesh, United Arab of Emirates, Qatar, Sri Lanka, Oman, Malaysia, Yemen, Afghanistan and Indonesia

Maize or corn is used for human consumption and animal feed. Besides this Maize is also used as the raw material in the manufacturing of starch, oil, protein, alcoholic beverages, food sweeteners, pharmaceuticals, cosmetics, gums, etc. it is largely exported to Bangladesh, Vietnam, Nepal, Malaysia, Myanmar, U Arab Emirates, Bhutan, Thailand, Qatar, Syria

Millet is a common term to categorize small-seeded grasses that are often termed nutria-cereals. Millets are the cereal crops generally small-seeded and known for high nutritive value.

Increasing interest in reviving the consumption of millets across various countries is favoring the growth prospects of this market in recent years. India is the 5th largest exporter of Millets. Millets exports from India have continuously increasing. Different varieties of millets are exported to Nepal, United Arab Emirates, Saudi Arab, Libya, Tunisia, Morocco, UK, Yemen, Oman, Algeria etc.

ANIMAL PRODUCTS

India is rich in its livestock wealth, which plays an important role in the socio-economic aspects of India. Exports of animal products contribute significantly in the overall agri products exports. India has prominent share in international production and export in products like Buffalo meat, Sheep/ Goat meat, Poultry products, Animal Casings, Milk and Milk products, Honey etc.

India is successfully exporting buffalo meat to more than 70 countries since last 50 years with an excellent track record. Health Certificates are issued from APEDA's Meat.net portal. The animals are raised on natural feeds without any supplement of antibiotics, hormones and growth promoters.

Poultry products exported from the country include: Live Fowls/ Ducks/ Geese/ Turkey, Meat/ frozen chilled Deices, cut and offal, fatty livers/ eggs/ egg yolk and birds.

Dairy products exported include: dry/ powdered/ condensed/ semi-solid whey, Butter milk, Yogurt. Butter. powder/ grated/ fresh cheese/ cheese spreads, and Ghee.

ORGANIC FARMING- A NEW DAWN

Organic products are grown with an environmentally and socially responsible approach, under a designed system of agriculture, without the use of chemical fertilizers and pesticides. This is a method of farming that works at the grass root level, preserving the reproductive and regenerative capacity of the soil and providing good plant nutrition and sound soil management. It also produces nutritious food which is rich in vitality and is disease-resistant.

India produces certified organic products which includes all varieties of food products namely; Basmati Rice, Pulses, Honey, Tea, Spices, Coffee, Oilseeds, Fruits, Processed Food, Cereals, Herbal medicines and their value-added products.

Talking about cereals, a sizeable quantity of organic Basmati Rice is produced in the country. Organic Basmati Rice is produced in Uttarakhand, Haryana, U.P and J&K while the Non-Basmati Rice varieties are grown across the nation. Organic cereals and millet are also produced in the country. Organic pasta made from organic wheat also finds many takers.

An entire range of organic pulses—green gram, black gram and horse gram, along with arhar, chick pea, cow pea, and kidney beans are produced.

PROFILE Bakery has been marked the fast-growing industry in food sector over the years. Incorporating the Baked foods that are nutritious and healthy to the individuals was a concern to food industries to develop new products. Pizza is highly consumed and easily acceptable bakery product. Enrichment of pizza base with protein fibre and vital micronutrients enables enormous nutritional and health benefits to various segments of population especially children adolescents and young adults. The product millet-based pizza base was developed by incorporating proso millet flour and refined flour in different proportions of 70:30 (PMPB1) and 60:40 (PMPB2) along with control (RFPB) at various temperatures (i.e. 180 °C, 190 °C, 200 °C and 205 °C). Among these the PMPB1 was selected at 200 °C. The results indicated that the sensory attributes such as texture, taste, crust colour and overall acceptability of developed pizza base was significantly relatable with the control pizza base.

PROFILE Having worked rigorously with the farmers having more than a decade, we realized about the immense gap between the farmers and the potential markets. We found that there is no effective mechanism where farmers can access markets directly & get genuine price for their produce. Despite having fertile land & resources, farmers cannot compete in the International market due to lack of knowledge about how to produce quality products using technology & evolved process. From therein, the need to form NEER was realised.

On average almost 750 million people in India go to bed hungry. Do you know why? Approximately 40% of the food produced in India is wasted every year due to fragmented food and inefficacious supply chain system. Adding to the woes, on an average Indian household's waste 50 kilograms of food per person per year or 68,760,163 tonnes a year.

The numbers are staggering! Yet they speak truth.

NEER is an attempt to reduce this gap of supply & demand whilst empowering poor farmers and women. Not limited to this, our processes also focus to reduce the wastage of farm produce with our efficient supply chain systems.
