Advisory

Information for export of mangoes from India to Japan season 2023

Ref No. FFV-2022-23-000136

Dated: 03.04.2023

Dear Exporters and Stakeholders,

This is regarding the information for export of mango from India to Japan season 2023.

In order to facilitate the export of mango, all exporters are informed to prepare a schedule for conducting VHT Treatment.

In this regard, the schedule about the VHT Treatment along with consignment details may also be provided to APEDA, so that necessary information may be forwarded to the facility operators about the consignment. This will help in planning and prior preparation for treatment of mangoes well in advance so that it may be discussed and provided to the facility operator.

Further, the required information may also be helpful for the quarantine officers for prior awareness and smooth functioning while undertaking the export to Japan.

Also, all exporters are advised to get their mango orchards register/ renew through the concerned State Horticulture/Agriculture Department under APEDA's Mango.Net Traceability System.

U.K Vats
