NOTICE

Sub : APEDA's Financial Assistance for Purchase and Installation of Sortex Machine by Rice Exporters in the Rice Mills.

The Technical Committee for evaluation of proposals received for financial assistance under the plan scheme of APEDA in its meeting held on 11.09.2014, considered the proposals for purchase and installation of Sortex Machine by rice exporters in the rice mills. The Members felt that use of Sortex in rice units has now become an integral part of the processing line. It was decided that Sortex machine for processing of all cereal crops including rice will not be entitled for financial assistance from APEDA during the current plan period on account of paucity of funds.
